**BOARD OF LIBRARY TRUSTEES – CFD COMMITTEE
STAFF REPORT**

DEPARTMENT: Administration

MEETING DATE: December 14, 2022

PREPARED BY: Doug Anderson, Urban

LOCATION: Virtual Meeting

TITLE: CFD Bond Proceeds Financial Update

BACKGROUND

On November 3, 2020, the registered voters of the City of Altadena, by 72.35% authorized the Altadena Library District (ALD) to incur bonded indebtedness in the aggregate principal amount not to exceed \$24,000,000 to be secured by the levy of special taxes on taxable property within the District through local ballot Measure Z.

On March 3, 2022, bonds were issued by the Altadena Library District Community Facilities District (CFD). The issued bonds have \$21,125,000 par value plus an original issue premium of \$2,636,104.50. After accounting for all bond issuance costs and the funding of a Capitalized Interest Account, the net bond proceeds amount of \$22,939,286 was deposited into the Project Fund held by the bond Trustee bank (U.S. Bank Trust Company).

CFD Bond Project Fund Highlights

Working with the bond Trustee bank, the District has invested the net bond proceeds that were deposited into the Project Fund, using various government securities and money market funds. Those investments have generated \$40,761 in interest income from bond issuance through October 31, 2022.

The District has expended a total amount of \$525,183 from the bond Project Fund held by the Trustee Bank, for various project expenses through October 31, 2022, which included some initial project expenses that were incurred prior to the issuance of the bonds.

After accounting for interest income and project expenditures to date, the balance of the bond Project Fund is \$22,114,315 as of October 31, 2022.

This includes unrealized losses of \$341,855 because investments are required to be shown at current *market* value. The District will be holding the related government securities that are held in the Project Fund until the maturity of each investment and will therefore receive 100% of the principal amount, the current market value amount is not particularly relevant.

As a reminder, the amounts and terms of the selected government securities investments were designed to match up with estimated project expenditures over a three-year period, on a very conservative basis allowing for over \$5.9 million in cash equivalents (money market funds) that are immediately available to the District, without any market risk adjustments.

A breakdown of bond Project Fund expenditures to date (through October 31, 2022) by payee, is shown in the table below:
